If both funds and agency are the provided by Govt, the interest and Control of Local Boards and Municipalities can only be increased. If the Dy Commissioners are to exercise Control as a part matter of their ordinary duties I should they must need agency and perhaps the District Inspecting staff may be placed more than as the Special and the Police staff are placed. In any case the primary schools need such local supervision and some decentralization is therefore necessary. I am strongly in favor therefore of the whole question being thoroughly discussed during the next Darbar.

DIARY N. 7382

10-10

My dear Mr. D'Souza,

Your D.O. No.711/Edn.25-15 of the 20th ultimo.

My note relating to the transfer of control of Primary Schools to Local Boards and Municipalities was sent to Government on the 2nd instant, and a copy of the same as well as copies of replies received from the Deputy Commissioners are enclosed herewith.

Yours sincerely,

H. Sharma Rao.

4.

Prior to the receipt of this file, I had addressed letter No.14382-9 dated 22nd February 1915 to the Deputy Commissioners of Districts calling for their opinion on two points: (1) Whether they were agreeable to the aided schools, primary, being placed under their control and (2) whether they were agreeable to the grants-in-aid being disbursed by the Taluk Amildars under the instructions of the Deputy Commissioners after the grants were formally sanctioned for the first time by the Inspector General.

The opinions received on the first point shew considerable diversity. The Deputy Commissioners of Kadur, Chitaldrug, Tumkur are apposed to the transfer of the control to them. The Deputy Commissioner of Shimoga has not favoured me with any - - opinion though he promised to do so. The Deputy Commissioner of Kolar is not able to give any decided opinion, but appears from the tone of his letter to be in favour of continuing the present state of things. The Deputy Commissioners of Hassan and Bangalore are in favour of assuming control, though the latter wishes the measure to be tried experimentally. The Deputy Commissioner of Mysore has given no opinion. Apparently he is not in favour. The main objections to any change appear to be, as stated by the Deputy Commissioner of Tumkur, (1) that the change will throw extra work on the Amildar with which it would be impossible for them to cope, (2) that it is not possible for the District Board to exercise that kind of supervision and control over the schools which a technical Department alone is competent to do.

In these circumstances, I am of opinion that the matter may be discussed during the next Dasara at a meeting of the Deputy Commissioners and other officers concerned. If both funds and agency are to be provided by Government, the interest and control of Local Boards and Municipalities can only be - - nominal. If the Deputy Commissioners are to exercise control

as

as a part of their ordinary duties, they will need an agency and perhaps the District Inspecting staff may be placed under them as the Excise and the Police staff are placed. In any case, the primary schools need strict local supervision and some decentralization is therefore necessary. I am strongly in favour, therefore, of the whole question being thoroughly disbussed during the next Dasara.

As regards the disbursement of grants, I have made an arrangement already in consultation with the Comptroller and it may be allowed to work for six months or a year to see how far it meets our needs.

Letter No.6271 dated 3rd March 1915 from the Deputy Commissioner, Kolar District, to the Inspector General of Education in Mysore.

I have the honour to acknowledge the receipt of your letter No.14382-9/325 dated 22nd February 1915, enquiring if the aided Village Elementary Schools, recently opened, may be placed under the control of the Deputy Commissioner in his capacity as President of the District Board and the grants sanctioned by you, disbursed by the Taluk Amildars under the control of the Deputy Commissioner.

2. In reply, I beg to invite reference to the correspondence ending with your letter No.10336/259 dated 15th December 1914 in the matter of entrusting these schools to the Deputy Commissioner in the capacity as President of the - - - District Committee, and to state that so far as the Deputy Commissioner is concerned, I fail to see how he will be in a better position to hold the control of the schools as President of the District Board than as President of the District Commi ttee.

3. At present, I am unable to say anything definitely on this subject, until I know what functions you propose to delegate to the Deputy Commissioner in the control of these schools.

4. If it be only in regard to the disbursement of pay to the school masters, I would suggest that the proposal made by me in para 2 of my letter No.860 dated 18/19th February 1915, in regard to the Hobli Schools be adopted in respect of the new aided schools also.

"Copy"

Letter No.1666/Mis dated 20th March 1915 from the Deputy Commissioner, Tumkur District, to the Inspector General of Education in Mysore.

With reference to your letter No.14382-9/326 dated 22nd ultimo, calling for my suggestions regarding the procedure that may be adopted in the payment of grants to aided village elementary schools started under the new scheme and enquiring whether I am agreeable to all such schools being placed under the control of the District Board, I have the honour to invite your kind attention to my D.O. No.104 dated 5th ultimo, wherein I have given my opinion as regards the procedure that might advantageously be adopted in disbursing such grants-in-aid amounts. If as suggested by me, there, the Amildars are empowered to prepare consolidated bills from reports received from the Chairmen of the Village Improvement Committees, and to cash such bills themselves without submitting them to you for countersignature, payments to the school masters may be made without any delay whatever, while at the same time, conformity in procedure will be secured. In doing so, of course, care will be taken to draw grants for such of the schools only the opening of which have been sanctioned by you; and in cases where for various reasons, any school has been closed, immediate intimation to that effect will be given to the Educational authorities. I am confident that this procedure will considerably simplify matters. The only thing that can be said against it is that it will, to a certain extent, go against the provision of the Educational Grant-in-aid Code according to which it is necessary for the Inspector General to countersign all bills for grants before payment. But considering that at present such countersignature cannot be anything more formality, I think that the provisions of the Code in this

Ramachar

particular

particular may be amended so as to suit the present altered conditions.

As regards the other question raised in your letter under reply, viz., whether all such schools cannot be placed under the control of the District Board, I do not see any advantage in doing so. The first objection to the proposed change is that it will throw extra work on the Amildars, with which it would be impossible for them to cope. There is also the greater objection that it is not possible for the District Board to exercise that kind of supervision and control over the schools which a Technical Department alone is competent to do.

I am therefore of opinion that no change in the present system on this respect is necessary.

With reference to your letter No.14382-8/331 dated 22nd February 1915 calling for my opinion regarding the procedure for disbursing the monthly grants-in-aid to the Aided Village Elementary Schools, I have the honour to state that I understand that the present procedure is that you are to get the bill from each school, duly certified by the School Committee to your office and return the same countersigned to the master direct. In my opinion this is very good in as much as it is an incentive for the Committee to take some interest in their work. The masters, however, appear not to be able to prepare the bill correctly and furnish all the information required. I would suggest that necessary headings under which information is required may as well be printed on the back of the bill itself as shown in the accompanying bill, and a sufficient stock of forms lasting for six months at least sent to each school at a time.

As regards disbursement of grants, however, I am of opinion that the present prevailing procedure of disbursing the pay of the Hobli school masters through the agency of Sheikdars may be adopted in accordance with instructions which might be issued from time to time by the District Inspector of Education concerned with regard to limiting the period for which the grant might be disbursed for a particular school.

2. The bills prepared by the school masters, may be submitted to the Taluk Amildar, who will have known the due working of the schools during his itineration in the Taluk and the Amildar will transmit the same to your office with his countersignature for the amount being sent to him for payment.

SIR,

As desired in your letter No. 4345/Edn. 19-14-37 dated 22nd April 1915, I have the honour to forward herewith a copy of Mr. Chandy's note regarding the transfer of control of Elementary Education to Local Boards and Municipalities.

Transfer of control of Elementary Education to Local Boards and Municipalities.

------:oOo:------

Government had sanctioned the formation of a Committee of both official and non-official members for reporting on the organisation and development of Local Self Government in the State. In one of the meetings of the Committee, of which I am a member the following resolution has been recorded. "The principle underlying the transfer of Primary Education to the administrative control of Local Boards and Municipal Councils has been accepted and it may be tried as an experiment in selected areas subject to the professional control of the State Educational Authorities." The deliberations of the Committee go to show that Taluk Boards will have independent budgets and corporate existence.

2. The following are the powers vested in Boards at present as regards Education:--

> Section 21 (b) of Mysore Local Board Regulation provides for the payment from District Funds such portion of the cost to the provincial departments as would be necessary for Fducational purposes.
>
> Section 54(p) of the Mysore Municipal Regulation provides that every Municipal Council has to make reasonable provision for establishing and maintaining Primary Schools within the Municipality under its control.
>
> Section 28 provides for the formation of School Committees for maintaining all or any Primary or other schools vested in or maintained by Municipal Councils and for conducting the business of the Municipal Council in respect of any Educational Institutions aided by Municipal Councils.

The Municipalities, at present, contribute only a portion of their income and credit it to General Revenues for this purpose without exercising any control over the sum but they retain such control in the Mysore and Bangalore Cities.

3. It has been the practice in the Madras Presidency to give the greater control over Education to Local bodies. High Schools Primary Schools, etc., are maintained by Local bodies in that Presidency.

4. Since the recent introduction of compulsory system of Edu-

cation in Mysore will have to be introduced first into urban areas before thinking of rural areas there is every scope and legal facility for the system of Education under the control of Local Bodies being tried in Municipalities as a first step. These will form so many centres of training ground, and eventually the system may extend to rural areas.

5. The Decentralisation Commission has already recommended that the Muncipalities should have full control over Primary Schools, and be relieved from the hard and fast restrictions of the Provincial and Educational Codes and Departmental rules.

6. To facilitate the progress of Education, Government may also be approached with a proposal to appoint Assistant Deputy Inspector of Schools as ex-officio member of Taluk Boards and Municipal Councils.

Deputy Commissioner,
